Become a Certified SQL Developer From Scratch Course

“Changing Virtual Machine Keyboard Input Settings”

Hi my friend,

Thank you for purchasing our course! And welcome aboard!

As you already know, we've prepared a virtual disc image that includes completely running Oracle Database in it just for you.

Thus, you can get your Oracle Database easily without installing.

And some of our students ask us, how can we change keyboard settings?

In this document we're going to show you how you can change your virtual machine's input settings easily.

All you need to do in here is just to follow these 2 steps below:

Throughout this course, if you have any question, please do not hesitate to ask.

We're here to help you.

Best,

Oracle-Masters Team.

Step 1:

Oracle VM VirtualBox window titled "Become a Certified SQL Developer Course [Running] - Oracle VM VirtualBox". The main application is "Oracle SQL Developer : hr".

The "System" menu is open, showing the "Administration" submenu. The "Keyboard" option is highlighted.

The "Connections" pane on the left shows the "hr" connection selected. The "Tables (Filtered)" view is active, displaying a list of tables and their details.

The "Messages - Log" pane at the bottom shows a list of messages:

	EMAIL	PHONE_NUMBER	HIRE_DATE	JOB_ID	SALARY	COMMISSION_PCT	MANAGER_ID	DEPARTMENT_ID		
1	NG	515.123.4567	17-JUN-87	AD_PRES	24000	(null)	(null)	90		
2	CHHAR	515.123.4568	21-SEP-89	AD_VP	17000	(null)	100	90		
3	HAAN	515.123.4569	13-JAN-93	AD_VP	17000	(null)	100	90		
4	WOLD	590.423.4567	03-JAN-90	IT_PROG	9000	(null)	102	60		
5	WST	590.423.4568	21-MAY-91	IT_PROG	6000	(null)	103	60		
6	STIN	590.423.4569	25-JUN-97	IT_PROG	4800	(null)	103	60		
7	106 Val11	Pataballa	VPATABAL	590.423.4560	05-FEB-98	IT_PROG	4800	(null)	103	60
8	107 Diana	Lorentz	DL0RENTZ	590.423.5567	07-FEB-99	IT_PROG	4200	(null)	103	60
9	108 Nancy	Greenberg	NGREENBE	515.124.4569	17-AUG-94	FI_MGR	12000	(null)	101	100

The Windows taskbar at the bottom shows the "Windows'u ara" search bar, taskbar icons for File Explorer, Google Chrome, Microsoft Edge, and other applications. The system tray shows the date and time as 01:20 8.06.2017.

Step 2:

Now, you can choose any language that you want. And that's all.

Now, you can write your sql queries and run it.

Enjoy!
